Independent Auditor's Report

The Board of Directors
ACCESS College Foundation
Norfolk, Virginia

We have audited the accompanying financial statements of ACCESS College Foundation (a non-profit organization, the Foundation), which comprise the statement of financial position as of June 30, 2017, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risks assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ACCESS College Foundation as of June 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on 2016 Financial Statements

The 2016 financial statements of ACCESS College Foundation were audited by McPhillips Roberts & Deans, PLC ("MRD"), whose members and professional staff joined BDO USA, LLP as of November 1, 2016, shortly after which MRD ceased operations. MRD's report dated October 31, 2016 expressed an unmodified opinion on those statements.

ACCESS College Foundation

Notes to Financial Statements

1. Nature of Organization

ACCESS College Foundation (the Foundation) is a publicly supported organization exempt from income taxes under Internal Revenue Code Section 501(c)(3). The purpose of the Foundation is to provide students, who may not have the opportunity, the path to attend and complete college. The Foundation provided postsecondary education planning to more than 13,000 high school juniors, seniors, and college students during 2017 and 12,000 in 2016. Of those students, 5,200 families disclosed their income and more than 79% were verified to be low-income. Based on federal free- and reduced-lunch statistics, other families were likely low-income as well, but did not officially disclose their information. Postsecondary education planning includes school-based advisory services for college preparation and success. The Foundation provides guidance to students throughout the college admissions process including assistance with college applications, college tours to prospective campuses, and the leveraging of financial aid, scholarships, and grants needed to attend college. The Foundation awarded more than 600 scholarships to qualifying students in 2017 and 2016. In addition to high school upperclassmen and college students, approximately 21,000 students in grades 7-10 attending a high-need middle or high school participated in early college awareness and readiness informational sessions and activities.

2. Summary of Significant Accounting Policies

Basis of Presentation

The Foundation is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. All donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a temporary restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as "net assets released from restrictions."

Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statements of financial position and cash flows, cash and cash equivalents are defined as demand deposits, certificate of deposits and all highly liquid debt instruments purchased with an original maturity of three months or less, other than those maintained as a part of investment portfolios.

ACCESS College Foundation

Notes to Financial Statements

Contributions Receivable

Contributions receivable represent unconditional promises to give and are recorded at net realizable value. Promises to give to be received after one year are discounted at an appropriate discount rate commensurate with the risks involved. An allowance for uncollectible contributions receivable is provided based upon management's judgment. Management considers all contributions to be collectible and, accordingly, has not provided an allowance for uncollectible contributions. Conditional promises to give are not included as support until the conditions are substantially met.

Investments

Investments in marketable debt and equity securities are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Foundation holds certain investments in partnerships that are valued at net asset value which management believes approximates fair value. Certain other investments in partnerships were recorded at cost as fair value was not determinable at June 30, 2016. The related unrealized gains and losses are included in the change in net assets in the statements of activities. Realized gains and losses on investment transactions are determined on an average cost basis. Fees totaling \$56,979 and \$55,772 in 2017 and 2016, respectively, were deducted from investment gains.

Property and Equipment

The Foundation capitalizes property and equipment purchased costing \$500 or more with an estimated useful life greater than one year. Property and equipment are recorded at cost and depreciated using the straight-line method, based on the following useful lives:

	Useful Life
Furniture and equipment	5 - 7 years
Leasehold improvements	39 years
Software	3 years

Depreciation expense for the years ended June 30, 2017 and 2016 was \$16,908 and \$16,580, respectively.

Donations

Donated facilities and services are recorded as revenue and expense in the period of use at fair value. The Foundation's facilities were donated by certain local public schools systems and the City of Norfolk.

Contributions of donated stock and property are immediately sold when received from the donor, by resolution of the board of directors. Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, that are provided by individuals possessing those skills, and that would typically need to be purchased if not provided by donation are recorded at their fair values in the period received. In addition, a substantial number of volunteers have donated significant amounts of their time to further the mission of the Foundation. The value of these volunteer services is not reflected in the accompanying statements of activities.

ACCESS College Foundation

Notes to Financial Statements

Expense Allocation

The costs of providing various programs and other activities have been summarized on a functional basis in the statements of activities and of functional expenses. Accordingly, certain costs have been allocated between program services, general and administrative, and fundraising.

Income Taxes

The Foundation is an organization described in Sections 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes. Exempt organizations are subject to tax on income from regularly conducted trade or business activities that are not substantially related to the organization's exempt purpose. Returns are generally subject to examinations for three years from the date filed. This period of limitations has expired for returns filed for tax years 2013 and earlier. Management continually evaluates tax positions reflected in the Foundation's tax filings and does not believe that any material uncertain tax positions exist.

Subsequent Events

Management has evaluated subsequent events through December 18, 2017 the date which the financial statements were available for issue.

3. Contributions Receivable

Contributions receivable are summarized as follows as of June 30:

	2017	2016
Receivable in less than one year	\$ 2,599,999	\$ 2,504,369
Receivable in one to five years	1,822,081	4,367,440
Receivable in more than five years	-	5,000
Total contributions receivable	4,422,080	6,876,809
Less discounts to net present value	(40,165)	(92,546)
Net Contributions Receivable	\$ 4,381,915	\$ 6,784,263

Long-term contributions receivable are discounted using the Mid-Term Applicable Federal Rate, ranging from 1.41% to 1.96% based on when the promise to give was made. Contributions receivable are principally from donors in the Hampton Roads area. The concentration of credit risk is partially mitigated by the large number of donors. The Foundation does not require collateral in relation to these receivables.

Total Investments	\$ 43,656,230	\$ 35,194,184	\$ 39,258,870	\$ 33,388,343

At June 30, 2017, the Foundation had committed aggregate capital of \$12,291,000 to certain partnership investments of which \$2,970,263 had not yet been called.

5. Fair Value Measurements

The Foundation's investments are valued using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy defines three levels of inputs, giving the highest priority to unadjusted quoted prices in active markets for identical assets and the lowest priority to unobservable inputs.

- Level 1 - quoted prices in active markets for identical assets or liabilities.
- Level 2 - observable inputs that include quoted market prices for similar assets or liabilities; quoted market prices that are not in an active market; or other inputs that are observable and can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 - unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

ACCESS College Foundation

Notes to Financial Statements

ASC 820 permits, as a practical expedient, an entity holding investments in certain entities that have the attributes described in ASC 946, *Financial Services - Investment Companies*, or have attributes similar to such entities, and calculate Net Asset Value (NAV) per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that NAV per share, or its equivalent, without adjustment.

The Foundation uses the practical expedient to value its investments in certain partnerships. At June 30, 2017 and 2016, all of the Foundation's investments were either Level 1, Level 2, or valued using the practical expedient. Investments using the practical expedient or cost basis are not categorized within the fair value hierarchy, and are presented as Other Investments in the following tables for purposes of reconciling to the Statements of Financial Position.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2017 and 2016.

Money market funds and domestic equity mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds and municipal bonds: Valued based on a compilation of primarily observable market information in an inactive market.

The following table sets forth by level within the fair value hierarchy, the Foundation's investments measured at fair value as of June 30, 2017 on a recurring basis:

	Level 1	Level 2	Other Investments	Total

8. Endowments of Not-For-Profit Organizations

The Foundation's endowments consist of one individual fund established for a variety of purposes. The endowment is a donor-restricted endowment fund. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Governing Board's Interpretation of Law The Board of Directors has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund;
- (2) The purpose of the Foundation and the donor-restricted endowment fund;
- (3) General economic conditions;
- (4) The possible effect of inflation and deflation;
- (5) The expected total return from income and appreciation of investments;
- (6) Other resources of the Foundation;
- (7) The investment policies of the Foundation.

Investment Return Objectives and Risk Parameters The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets are donor-restricted funds that the Foundation must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Directors, the endowment assets are invested across a globally diversified set of asset classes and security types, avoiding concentration in any one market or security base. The Board of Directors is willing to accept intermediate term volatility in order to achieve a long term growth objective. The fund takes on some degree of illiquidity in order to achieve returns that are expected to be higher than market averages. The Foundation expects its endowment funds, over time, to provide an average rate of return of the Consumer Price Index plus 5 percent annually. Actual returns in any given year may vary from this amount.

Spending Policy The Foundation has a policy of appropriating for distribution each year up to 5 percent of its endowment fund's average fair value over the preceding 12 quarters using a calendar three year moving average. In establishing this policy, the Foundation considered the long-term expected return on its endowment. Accordingly, over the long term, the Foundation expects the current spending policy to grow in excess of the spending rate plus inflation. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

11. Neighborhood Assistance Act

The Foundation was approved by the Commonwealth of Virginia to solicit contributions in the amount of \$405,218 under the Virginia Neighborhood Assistance Act (VNAA) for the period from July 1, 2016 to June 30, 2017 and \$450,199 for the period from July 1, 2015 to June 30, 2016. Contributions received from taxpaying entities are eligible for 65% Virginia state tax credit under the provisions of the VNAA for 2017 and 2016. As of June 30, 2017 and 2016, respectively, tax credits offered to qualifying entities amounted to \$405,218 and \$450,077.

12. Risks and Uncertainties

The Foundation invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the Foundation's account balances and the amounts reported in the statements of financial position.

13. Concentration of Credit Risk

At various times during the years presented, the Foundation may have had on deposit with a single financial institution more than \$250,000, which is the basic limit currently insured by the Federal Deposit Insurance Corporation (FDIC).
